TECHNICAL SKILLS

Frontend: React.js • Redux • Tailwind CSS • HTML • CSS

Backend: Firebase • MongoDB

Tools: Git • VS Code • Figma

Languages: JavaScript • C

KEY PROJECTS

Earth's Materials Trading [\[Link\]](#)

2024

HTML, CSS, JS

Designed and developed a responsive website for Earth's Material Trading Establishment using modern front-end technologies. The website features a clean UI/UX, showcasing a wide range of safety and productivity-enhancing equipment

The Bit (Question Bank) [\[Link\]](#)

2024

React Vite, Tailwind CSS

Built a robust question bank application with React, enabling students to search from 7 years of question papers across 10 subjects. Reduced average search time by **20%** through optimized algorithms.

Loyverse Clone [\[Link\]](#)

2025

React Vite, Tailwind CSS, JsonServer

Engineered a clone of Loyverse POS software, focusing on UI/UX design, inventory management features, and integration with Firebase for real-time data synchronization.

OBJECTIVE

A passionate and self-motivated front-end developer skilled in React.js and modern web technologies, eager to contribute to building innovative, user-centric solutions. Excited to leverage my skills to drive success in a forward-thinking organization.
